

Cover Letter – Entry-Level Cybersecurity Role

Dear Hiring Manager,

I am writing to apply for an entry-level Cybersecurity position at your organization. My name is **Himanshu Kumar Singh**, and I am currently a third-year **B.Tech Computer Science Engineering student specializing in Cybersecurity**. With a strong foundation in security concepts and a practical learning mindset, I am keen to begin my professional journey in a security-focused environment.

As reflected in my resume, I have built hands-on exposure to **network security, intrusion detection systems, ethical hacking fundamentals, and basic security tooling**. I focus on applying theoretical knowledge through projects, labs, and continuous self-study, ensuring my skills remain aligned with real-world security challenges.

I view cybersecurity as both a technical and business-critical function—one that protects data integrity, system availability, and organizational trust. I am disciplined, analytical, and adaptable, with a strong willingness to learn from experienced professionals and evolving threat landscapes.

I am motivated to contribute responsibly as part of a security team while continuously strengthening my technical capabilities. I would welcome the opportunity to discuss how my background, mindset, and long-term goals can add value to your organization.

Thank you for your time and consideration.

Sincerely,

Himanshu Kumar Singh

B.Tech – Computer Science Engineering (Cybersecurity)
