

HIMANSHU KUMAR SINGH

PROFESSIONAL SUMMARY

Cybersecurity-focused Computer Science undergraduate with hands-on experience in security automation, network analysis, and vulnerability assessment within controlled lab environments. Strong foundation in TCP/IP networking, Python scripting, and defensive security practices. Actively developing expertise in threat detection, incident response, and security process automation.

TECHNICAL SKILLS

- TCP/IP Fundamentals
- Network Traffic Analysis
- Vulnerability Assessment (Lab-based)
- OWASP Top 10
- MITRE ATT&CK; (Foundational)
- Windows & Linux Log Analysis (Basic)
- Firewall & Access Control Concepts
- Nmap, Wireshark, Kali Linux, Ubuntu
- Python (Automation, Regex, Log Parsing, Hashing)
- Bash (Basic Scripting)

PROJECTS

Security Log Analyzer (Python Lab Project): Developed a Python-based log parsing tool to detect suspicious IP patterns. Applied regex filtering to identify abnormal access attempts. Implemented SHA256 hash validation for file integrity checking.

Vulnerability Assessment Lab: Conducted network scanning using Nmap in a virtualized lab environment. Identified open ports and potential exposure points. Documented findings and suggested remediation strategies.

EDUCATION

B.Tech in Computer Science (Cybersecurity Focus) Expected Graduation: April 2027
